

Deliverable 1: Project Concept

ITS400/CSS400 Project Development (Semester 1)

<http://ict.siit.tu.ac.th/moodle/>

Project Stages

- Project Concept why do it?
- Requirements Specification what will it do?
- Design Specification how will it do it?
- Implement do it
- Test did it do it?
- System Manual how did you do it?

Project Stages

- Project Concept why do it?
- Requirements Specification what will it do?
- Design Specification how will it do it?
- Implement do it
- Test did it do it?
- System Manual how did you do it?

Project Concept

- 2 page summary of what you will do and why
- Aim is to encourage you to:
 - Talk to your advisor and others
 - Think about users and usage scenarios
 - Gain practice in summarising a complex topic

Format

- 2 pages (strict)
- 20-25mm margins
- 12 pt Times or similar
- Text only: No tables, pictures or references
- 5 sections

Sections

- Summary
 - What will be done in the project?
- Motivation
 - What problem will the system solve?
- Users and Benefits
 - Who will use and benefit from the system?
- Typical Usage
 - How will the system be used in a typical scenario?
 - What are some of the key features?
- Expected Challenges
 - What is expected to be the hardest and/or most time consuming part of the project?

Deadlines

- Deliverable 1
 - Submit document in week 4

- Presentation 1
 - Individual presentation in week 5
